Whirlpool® Freestanding Gas Ranges

The power to get more done

KEY FEATURES

- Satin Finish, Full Width Dishwasher Safe Grates Makes Cleanup Easy
- Recessed 5 Burner Cooktop with Power™ Burners Generate High Heat for Rapid Boiling
- 5.0 Cu. Ft. Capacity to Handle Oversized Cooking Jobs
- TimeSavor™ Convection Cooking System Seals In Flavor and Juices

Whirlpool® Freestanding Gas Ranges

A cooktop that cleans easily. Dishwasher safe satin finish cast iron grates have a smooth surface making it easy to wipe down. The single Sump design traps spills and other messes for easy cleaning.

Expand your cooking area. Full-width, cast-iron grates add flexibility to your cooktop, making it easy to shift pots and pans around.

Smart oven cleaning. Using the PreciseClean™ Self Cleaning System, the oven automatically cleans according to soil level, so the cycle only lasts as long as necessary, without the use of harsh chemicals.

Our largest-capacity ever. Oven capacity has been expanded to 5.0 cu. ft., for an oven that can handle your largest cooking jobs—even a jumbo holiday turkey or an oversized casserole.

Cook 30% faster* The TimeSavor™ Plus convection cooking system (True Convection) uses a rear fan and third heating element to circulate preheated air over, under and around food to seal in flavor and juices.

*Compared to traditional Whirlpool brand thermal bake ovens.

High Heat for Quicker Cooking. Power™ burners generate the high heat needed for rapid boiling, searing and frying—up to 17,000 BTUs.
